PROFESSIONAL SUMMARY

BCA graduate and MERN Stack Developer with hands-on experience developing full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in building responsive user interfaces, RESTful APIs, CRUD operations, authentication workflows, and frontend-backend integration. Gained practical development experience through MERN stack internship training and personal projects. Seeking a Junior/Fresher MERN Stack Developer or Full Stack Developer role.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, React Router, Redux, Context API, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs, Middleware

Database: MongoDB, Mongoose

Authentication & Development: JWT, Authentication, Authorization, CRUD Operations, MVC Architecture

Tools: Git, GitHub, VS Code

PROFESSIONAL EXPERIENCE

MERN Stack Development Intern *Synnefo Solutions*

- Built full-stack web applications using the MERN stack, handling both frontend and backend development.
- Created and managed APIs to perform operations like adding, updating, and deleting data.
- Worked with MongoDB to store and organize data efficiently using proper structure.
- Connected frontend and backend to ensure smooth data flow and real-time updates.
- Collaborated with team members using GitHub to improve overall application functionality.

PROJECTS

Car Rental Platform — Full Stack MERN

GitHub: <https://github.com/Abindavis508/car-rental-website->

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developing a full-stack car rental platform using React.js, Node.js, Express.js, and MongoDB.
- Implementing RESTful APIs for user authentication, vehicle listings, and rental booking workflows.
- Building user and owner dashboards for rental tracking, booking management, and vehicle management.
- Integrating the React frontend with backend APIs and MongoDB for end-to-end data management.

Weather Application

Github: <https://github.com/Abindavis508/whether-application>

- Developed a whether application using Html, Tailwind CSS, JavaScript, Node.js, and Express.js.
- Built a Node.js backend to securely handle API requests and manage server-side operations.
- Implemented dynamic weather updates, error handlings, and a responsive user interface.
- Integrated the OpenWeather API to dispaly real-time weather information based on user searches.

EDUCATION

Bachelor of Computer Applications (BCA)

University of Calicut | 2022–2025

MERN Stack Development Course

Synnefo Solutions | 2025-2026

CERTIFICATIONS & LANGUAGES

- **Certifications:** MERN Stack Development Certification (Synnefo Solutions, 2026) | NACTET Certification (2026) | Bachelor of Computer Applications Degree Certification (2026)
- **Languages:** English, Malayalam
